

# PRODUCT FICHE - AIR CONDITIONER

<b>Brand</b>	WHIRLPOOL
<b>Commercial code</b>	SPIW 312L
<b>Cooling sound power value for IDU</b>	56
<b>Cooling sound power value for ODU</b>	62
<b>Heating sound power value for IDU</b>	56
<b>Heating sound power value for ODU</b>	62
<b>Refrigerant gas type</b>	R32
<b>Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant fluid with a GWP equal to 675. This means that if 1 kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be 675 times higher than 1 kg of CO<sub>2</sub>, over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional.</b>	675
<b>SEER cooling</b>	6.1
<b>Energy class cooling</b>	A++
<b>Energy consumption 195 kWh per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.</b>	195
<b>Design load for cooling (kW)</b>	3.4
<b>SCOP heating average (Green)</b>	4
<b>Energy class heating</b>	A+
<b>Energy consumption 980 kWh per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.</b>	980
<b>Seasonal design load heating average (Green)</b>	2.8
<b>Seasonal design load heating colder (Blue)</b>	0
<b>Seasonal design load heating warmer (Orange)</b>	0
<b>Declared capacity (kW)</b>	2.3
<b>Back up heating capacity (kW)</b>	0.5
<b>Energy consumption 0, 0 kWh per 60 minutes, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.</b>	0, 0
